

# *Welcome to the Annular Eclipse Experience*

October 13 & 14, 2023

Two Nights of Camping plus Nature's Magical Show & Pavilion Music

## **Suggested Items**

*Be sure the items on the list below are included in your camping gear.*

### **All should consider the following:**

- **Never look at the sun without special eye protection:** Bring Eclipse viewing glasses or a handheld solar viewer
- You may wish to manage your trips from the country to town because the cave is 11 miles from Boerne via a two-lane road.
- Due to increased visitors to the area, there may be shortages of some items:
  - Come to the cave with a full tank of gas.
  - ATMs may be temporarily out of cash.
  - Bring cash! Due to overloaded internet, credit card usage may be problematic.
- Water (plenty of it)
- Be self-sufficient with ample food, snacks, & other supplies for the entire time.
- Bring a fully stocked First Aid Kit.
- Bring all necessary medications for you and your pets.
- Sun protection: Sunscreen, Sunglasses, Hat/visor
- Comfortable walking shoes
- Printed maps of the area in case your cell service is interrupted.
- Ensure your vehicle/RV has been serviced and you are fueled up and ready to go (gas, propane, etc.)
- Follow the rule "Pack it in, Pack it out!"

### **Campers without hookups:**

- Self-contained grills or propane camp stoves for cooking.
- Lawn chairs, tables, & personal shade (small umbrellas & big hats permitted.)
- No ice is available on the property. Consider a well-insulated ice chest.
- While it is recommended not to drink the water, it can be used to wash cooking wear, dishes, etc., so if you are camping without hookups, bring a bucket to transport water from the spigots to your campsite.
